Project Manager for Cyber Security (f/m/d)

SEC Consult (www.sec-consult.com) is one of the leading consultancies for cyber and application security. Meanwhile, we operate branches in Europe, Asia and North America. SEC Consult is a specialist for external and internal security assessments, penetration testing, the development of security information management processes and certification processes (ISO 27001), cyber defense, secure software development and sustainable improvement of security levels.

Job description...
As a project manager focusing on small and medium-sized projects, you will support our national and international clients in improving their cyber, IT and information security in the following areas:

- Project management of our technical and organisational project portfolio
- Work on introducing applicable standards (e.g. ISMS according to ISO 27001) and processes
- Supporting customers in group-wide customer projects

What skills you should possess

- Organisational and communication skills
- Basic knowledge of cyber, information and IT security is an advantage
- Project management certification (PMI, IPMA, Prince2,...) preferable
- Excellent command of written and spoken German and English
- Willingness to travel

What we expect...

- Certificate of Higher Education (Technical college/University)
- Knowledge of IT project management methods and practical experience in the planning of complex projects

What we offer you...

- Position of responsibility in a successful, international and innovative security company
- Interesting projects with well-known clients
- Flexible working hours, collegial working atmosphere, attractive social benefits

Beginning of employment
any time

Working Hours
